Communication and Language	This week is your last week in our class. Think back to all the things that we have learned about this year. Which topic was your favourite? What have you enjoyed the most in our classroom?	Hot Potato – The children and people in the house pass a small round object around the circle while the music plays (a beanbag or tennis ball would be ideal). The object of the game is not to be left holding the 'potato' when the music stops.		What are you looking forward to about the new year at school? Talk to someone in your house about some of the new things you are going to experience. Perhaps you have an older sibling who can tell you all of the exciting things that they know you will be doing next year.	Share a story with someone in your house. It could be your favourite story, a story about starting something new or a story about being brave.
Additional Activities	Use the template on page 4 to draw some of your favourite foods. Tell your new teacher what you like to eat and why?	Use the house template on page 5 to draw a picture of who lives in your house with you. You could cut up some pictures from magazines and catalogues to add furniture to your picture.	Practise writing your name, listen carefully for the sounds that you can hear and use your Fred Fingers to help you.	Choose your favourite colour. Draw as many things as you can think of that are the same colour. My favourite colour is green so I would draw grass, broccoli	Practise getting yourself dressed each morning. In year 1 you will be getting changed for P.E so practise being able to put your socks on or changing your t-shirt.
