

Maths

This term we are focusing on number to 20. We will begin by looking at place value and how numbers are composed of tens and ones. We will then move on to addition and subtraction within 20. We will also focus on shape and recap our knowledge of 2D and 3D shapes that we previously learned in the EYFS.

Writing

This term we will be focusing on a number of texts which link to our Beside the seaside theme. We will read texts such as "the Lighthouse Keeper's Lunch", "Meerkat Mail" and also "Billy's Bucket". We will be writing instructions and innovated stories based around these texts. We will continue to work on our basic sentence writing skills.

Science

In Science we will be exploring animals and how they can be categorised into the different groups of mammals, fish, birds, amphibians and reptiles. We will compare similarities and differences between the different groups. We will also extend our knowledge of materials and carry out a number of practical tasks to test their properties and suitability for different purposes.

Geography

This term we will be developing our knowledge of place. We will learn about the four countries of the United Kingdom and will be able to identify these on a map. We will also be introduced to the terms city, town and village and will learn how to distinguish between the different settlements. We will then carry out work on our local area and compare this to the seaside town of Bridlington. We will identify physical and human features of both areas.

Year 1

Beside the Seaside

D.T.

In D.T. we will be creating our own windmill structures based on a design criteria. We will use suitable materials to ensure that our windmills are able to move. We will also be developing our basic sewing skills in textiles where we will create our own hand puppets. We will learn about the different methods of joining fabric together and will learn how to sew a running stitch.

R.E.

This term we will focus on the religions of Christianity and Islam. We will learn about what worship is and how worship is carried out within the different religions. We will explore places of worship as well as the Christian and Muslim Holy books.

P.E.

This term we will be working on target games to develop our throwing skills. We will practise our underarm and overarm throw and develop these skills further. We will also be working on gymnastics and exploring the different ways that we can move our bodies.

Computing

This term we will focus on programming a device. We will learn how to programme a Beebot to carry out a sequence of commands. We will learn different directions that a Beebot can move in and will learn how to move a Beebot from one place to another.

Jigsaw

This term we will be focusing on dreams and goals. We will each set ourselves a goal and will think about what we can do to achieve our goal. We will consider different challenges and obstacles that we may face on the way and will think about what we can do to overcome these obstacles.
